

CFX 2050/TMX 2050 Quick Reference Card

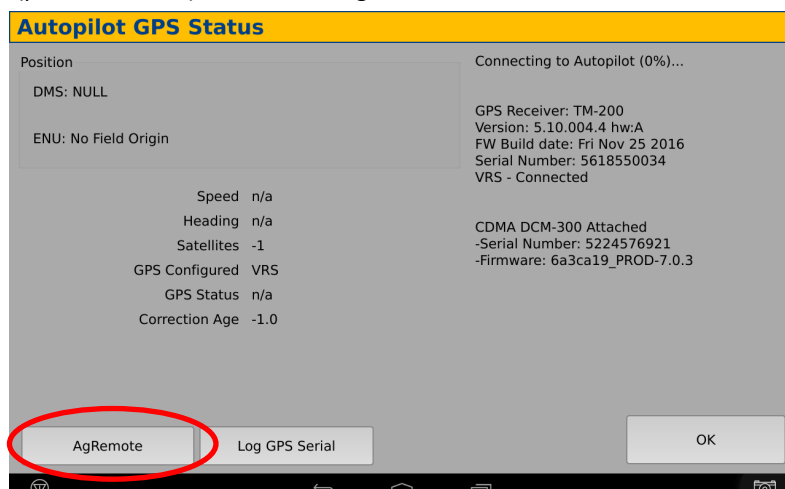

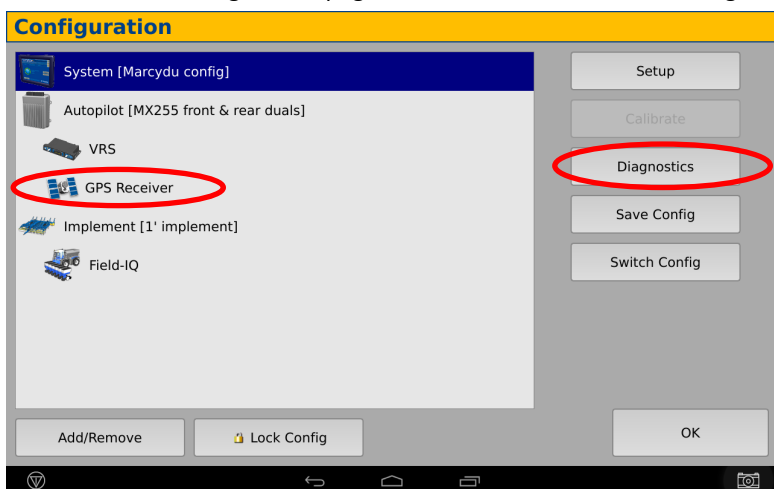

Begin by installing the Beacon into the Trimble EXP-100 port expander cable. Once the Beacon is installed proceed to the FMXplus app on the home screen of the TMX display. Continue to the wrench and select GPS Receiver on the right, followed by Setup on the Left. On the GPS Receiver setup page change the Corrections to Centerpoint RTK.

Return to the Configuration page and select System -> Setup -> Then scroll down to Port setup -> Setup -> Select your EXP-100 SN from the dropdown labeled AG 815 Secondary Serial.

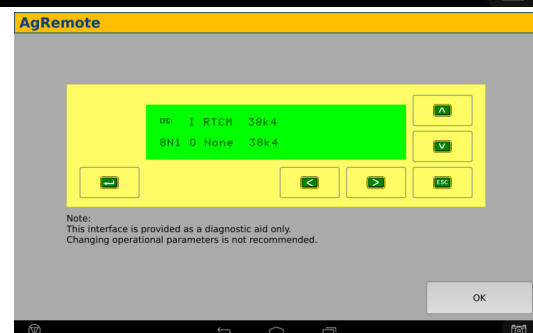

Return to the Configuration page and select GPS receiver and Diagnostics (password 2009). Then Select Ag Remote.

Ag Remote Setup instructions

1. Press the right arrow twice to configuration -> press the Down arrow to enter the Configuration menu -> Press the Right arrow until you get to the port D config -> Press the down arrow to enter.
2. Use the Right arrow once to select TSIP and the up or down arrows to change that to RTCM -> Press the Right arrow 5 More times to move to the Bottom TSIP and using up or down change this to NONE. Press enter (see screenshot on right to confirm settings) -> Then down once -> Confirm NMEA1 has nothing capitalized, then proceed down to NMEA2 and confirm nothing is capitalized. Press the esc icon 3 times to return to the main screen.

Note: Not all android Devices are created Equal, Please try your device before purchasing
