Quick Reference Card

TopCon X30 & AGCO C3000 Display

TopCon X30 & AGCO C3000 Display Setup

Fig 1

Begin by connecting the Beacon to the AGI 4 via the adapter cable & black connector on the back of the receiver (Fig 1).

Next, navigate to the Wrench icon; then System; then GPS; then Correction.

Configure the GPS correction source page to match the screenshot below (Fig 2).

Fig 2

Fig 3

Return to the Run screen to confirm RTK fix as in the figure below (Fig 3).
